

Sleeping Giants: Unveiling the Enigma of The Themis Files

Have you ever come across a book series that grips your imagination from the first page and doesn't let go until the final sentence? The Themis Files is one such literary masterpiece that takes you on an extraordinary journey where the line between science fiction and reality blurs. With its captivating storyline and well-developed characters, Sleeping Giants, the first book in the trilogy, introduces you to a world of endless possibilities.

From the moment you pick up Sleeping Giants, you are immediately captivated by the mystery that unfolds. Written by Sylvain Neuvel, this thrilling science fiction novel combines elements of mystery, politics, and technology, leaving readers craving for more. And with its unique storytelling format, presented in a series of interviews, journal entries, and recorded conversations, the book delivers a truly immersive experience.

The story begins with a young girl named Rose Franklin who, while riding her bike, stumbles upon a gigantic metal hand buried in the ground. This astonishing discovery sets in motion a quest to unravel the secrets of this celestial being and its unearthly origins. Throughout the book, you join a team of scientists, military personnel, and government agents as they strive to unearth more pieces of this enigmatic puzzle.

The Themis Files trilogy takes readers on a rollercoaster ride that spans continents and decades, exploring themes of humanity, power, and the unknown. As you delve deeper into the story, you will find yourself questioning the limits of human achievement and the ethical dilemmas that arise when technological advancements surpass our understanding.

Neuvel's remarkable talent lies in his ability to create multidimensional characters who feel remarkably human, despite the extraordinary circumstances they find themselves in. The protagonist, Rose Franklin, is portrayed as a highly intelligent and determined scientist whose unwavering curiosity drives her to uncover the truth behind the existence of the sleeping giants. Alongside her are other characters who bring their diverse perspectives and expertise to the table, making the narrative even more enthralling.

The concept of these sleeping giants, scattered across the globe, leaves readers in awe and wonder. Neuvel masterfully explores the implications of this discovery on various aspects of society, from politics and military power to the existential questions it raises about our place in the universe. This amalgamation of science and fiction creates a rich and thought-provoking narrative that can be enjoyed by fans of both genres.

As you progress through the trilogy, with *Waking Gods* and *Only Human* following *Sleeping Giants*, you will witness the development of the characters and their relationships, as well as the escalating tensions brewing between nations. These books serve as a reminder of the fragility of humanity and the consequences that arise when power is concentrated in the wrong hands.

In addition to the gripping plot, Neuvel's writing style is engaging, ensuring that you are hooked from start to finish. Each chapter leaves you yearning for the next, as the mysteries of the Themis Files slowly unravel before your eyes. His attention to detail and meticulous research lend an air of authenticity to the narrative, making it easy for readers to suspend their disbelief and become fully immersed in the story.

With the release of the trilogy's final installment, *Only Human*, readers are eager to discover the ultimate fate of humanity and the sleeping giants. Will the characters find the answers they seek, or will their endeavors lead to unimaginable consequences?

If you are a fan of science fiction, mystery, and thought-provoking narratives that explore the human condition, then *The Themis Files* trilogy is a must-read. Prepare to embark on a journey like no other, where reality and fiction merge to create an unforgettable reading experience. Join Rose Franklin and her companions as they decode the enigma of the sleeping giants, and prepare to have your mind blown.

Sleeping Giants (The Themis Files Book 1)

by Sylvain Neuvel (Kindle Edition)

4.1 out of 5

Language

Print length	: 296 pages

A page-turning debut in the tradition of Michael Crichton, *World War Z*, and *The Martian*, *Sleeping Giants* is a thriller fueled by an earthshaking mystery —and a fight to control a gargantuan power.

A girl named Rose is riding her new bike near her home in Deadwood, South Dakota, when she falls through the earth. She wakes up at the bottom of a square hole, its walls glowing with intricate carvings. But the firemen who come to save her peer down upon something even stranger: a little girl in the palm of a giant metal hand.

Seventeen years later, the mystery of the bizarre artifact remains unsolved —its origins, architects, and purpose unknown. Its carbon dating defies belief; military reports are redacted; theories are floated, then rejected.

But some can never stop searching for answers.

Rose Franklin is now a highly trained physicist leading a top secret team to crack the hand's code. And along with her colleagues, she is being interviewed by a nameless interrogator whose power and purview are as enigmatic as the provenance of the relic. What's clear is that Rose and her compatriots are on the edge of unraveling history's most perplexing

discovery—and figuring out what it portends for humanity. But once the pieces of the puzzle are in place, will the result prove to be an instrument of lasting peace or a weapon of mass destruction?

Praise for *Sleeping Giants*

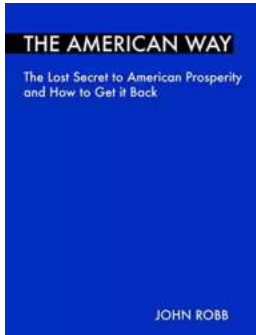

“As high-concept as it is, *Sleeping Giants* is a thriller through and through. . . . One of the most promising series kickoffs in recent memory, [and] a smart demonstration of how science fiction can honor its traditions and reverse-engineer them at the same time.”—NPR

“Neuvel weaves a complex tapestry with ancient machinery buried in the Earth, shadow governments, and geopolitical conflicts. But the most surprising thing about the book may just be how compelling the central characters are in the midst of these larger-than-life concepts. . . . I can’t stop thinking about it.”—Chicago Review of Books

“A remarkable debut . . . Reminiscent of Max Brooks’s *World War Z*, the story’s format effectively builds suspense.”—Library Journal (debut of the month)

“This stellar debut novel . . . masterfully blends together elements of sci-fi, political thriller and apocalyptic fiction. . . . A page-turner of the highest order.”—Kirkus Reviews (starred review)
